

The Mainport Group, headquartered at Monahan Road, Cork, is one of Ireland's leading marine services companies and is involved in vessel ownership, ship agency, stevedoring and off-shore services at several locations in Ireland, South Africa, Angola and Singapore, working with some of the world's largest corporations involved in seismic acquisition and hydrocarbon exploration and development.

Mainport are now recruiting Masters and Mates for their Irish offshore MRV/ERRV vessel & their Seismic Support vessels operating worldwide.

These senior positions will see the successful candidate undertake the management, operation and technical support of the vessels together with the onshore support team.

These roles will suit experienced, committed and hardworking Masters and Mates, capable of working in a high demand operational environment, seeking solutions on their own initiative while demonstrating excellent technical, relationship and leadership skills.

The suitably qualified, self-disciplined Masters will command and operate the vessels on a day to day basis and carry out their duties as required by the Group.

PSV/AHTS/ERRV experience is desirable. The successful candidates will implement company ISM policies and procedures through the provision

of a practical, efficient, timely and safe service to all concerned. Remuneration for the positions listed will reflect the level of experience and suitability to the task.
